Professional Summary

Final-year Computer Engineering student with hands-on experience in Android and Flutter app development using Java, Kotlin, and Dart. Proficient in Object-Oriented Programming (OOP), RESTful APIs, and Firebase integration. Focused on building scalable, real-time, and user-friendly mobile apps through projects, internships, and hackathons.

EDUCATION

Bachelor of Technology in Computer Engineering
CGPA-6.98

Marwadi University (NAAC A+), 2023 - 2026

Higher Secondary
Percentage Performance: 85%

RPS Sidhwarawali, Gurugram 2020 - 2021

Secondary School
Percentage Performance: 80%

Holy Child Public School, Bhiwadi, Haryana 2019

TECHNICAL SKILLS

Languages: Java, Kotlin, Dart, Python (basic)

Frameworks & Libraries: Flutter, Spring Boot, .NET

Tools & Platforms: Android Studio, Firebase, Git, Postman, VS Code

Databases: MySQL, SQLite, Firebase Firestore

App Development Concepts: OOP, MVVM Architecture, REST APIs, UI/UX Design

INTERNSHIP EXPERIENCE

TSS Consultancy

Software Developer Intern

Jan 2025 – Apr 2025

- Developed backend modules for MCX data processing using Java Spring Boot & PostgreSQL
- Automated workflows with tools like PDF extractors, JSON converters, and data validators.

PROJECT WORK

Smart Pill Reminder & Medicine Tracker– Mobile Health App (Ongoing)

Major Project | Flutter, Dart, Firebase

- Designing a Flutter app to help users schedule and receive daily medication reminders via local notifications.
- Implementing features like pill scheduling, dosage tracking, stock management and integrated nearby pharmacy locator.

Flutter Catalog App

Personal Project | Flutter, Dart, VelocityX

- Built a modular Flutter app to demonstrate reusable UI components, layouts, and navigation using VelocityX.
- Followed clean architecture and responsive design principles to showcase Flutter development best practices.

Weather App

Personal Project | Kotlin, XML, Firebase, OpenWeatherMap API

- Created a responsive weather app with Kotlin, XML, and OpenWeatherMap API for real-time data and dynamic UI.
- Added Firebase Realtime Database for data storage and Cloud Messaging for push notifications to enhance user experience.

CERTIFICATION

- | | |
|---|-------------|
| 1. Apps with Flutter for Beginners | – Net Ninja |
| 2. Android Developer Course – Android Fundamentals | – Infosys |
| 3. Postman API Fundamentals Student Expert | – Postman |
| 4. Programming for Everybody – Getting Started with Python | – Coursera |
| 5. NDG Linux Essentials – Completed foundational Linux training | – Cisco |

ACHIEVEMENTS & SOFT SKILLS

- Soft Skills:** Teamwork | Communication | Time Management
- Languages Known:** English | Hindi | Gujarati | Bhojpuri
- Interests:** Travelling, Music
- Club Member:** Member of Robotics Club in Marwadi University
- Arcade Program:** Google Cloud's Arcade Premium Plus milestone achiever
- Hackathons:** Flipkart GRiD Hackathon, Hack The Mountains 5.0, INTELLIFY 2023 Hackathon
